

## WebAssign

WebAssign is an online, interactive environment for teaching and learning. Using WebAssign students will complete *Core Homework Problems* common to all sections; individual instructors may also assign additional homework. WebAssign also provides access to the text as an e-book. By department policy, homework will count at least 5% towards students' final course grade. The ground rules provided by your instructor will have further details.

You may begin using WebAssign on the first day of class. In order to access WebAssign after the 14-day grace period, you must purchase an access code as detailed below. If you purchased an access code in MATH 161 for the Stewart text in a previous semester, **do not purchase** a new code as the code you previously purchased remains valid.

**Instructions for students to obtain the e-book and to use WebAssign:** Once your instructor has uploaded the class roster to WebAssign, your personal class page will be activated. You will access it with your Loyola ID and password as detailed below. (*Note to returning students: there is a change from previous semesters... you no longer need a class key to use WebAssign.*)

1. Go to [www.webassign.net/luc/login.html](http://www.webassign.net/luc/login.html) (*Note the change in URL from previous semesters.*)
2. Use the **LOG IN @ LOYOLA UNIVERSITY CHICAGO** button in the center of the page. The LOG IN button in the upper right-hand corner **should NOT** be used.
3. Selecting the Loyola login button will bring you to a standard Loyola login page, where you will enter your Loyola ID and password.
4. Successful login should bring you to a WebAssign home screen from which you can access any of your courses having a WebAssign component.
5. Select the desired course. If you have not already registered an access code for the course, a notice will be displayed with three choices:
  - Enter an access code (purchased at the Loyola Bookstore or from the Acadiem website),
  - Purchase an access code (online from WebAssign), or
  - Continue the free trial.

Select the appropriate choice to access the e-book and homework assignments.

**6. If you purchased an access code for the Stewart text in a previous semester, you do not need to purchase another code.**

**7.** If at any time you run into technical difficulty using WebAssign, you can contact WebAssign directly by email or phone. Visit <https://webassign.com/support/student-support/> to get started.
